Curriculum:

- HealthCenter21: Health Care Foundations

Program Title:

- Allied Health & Fitness Tech Prep

Instructor:

- Lori Bamrick, RN

Students achieve success in the HealthCenter21 lab at Polaris Career Center. Lori Bamrick, Allied Health and Fitness Tech Prep Instructor, looks back on the first year experience with the AES program...

"HealthCenter21 was installed on our system before the first day of school for the 2006-2007 school year. It was in use by the third week of school as the **core curriculum for our new Health Academy.**

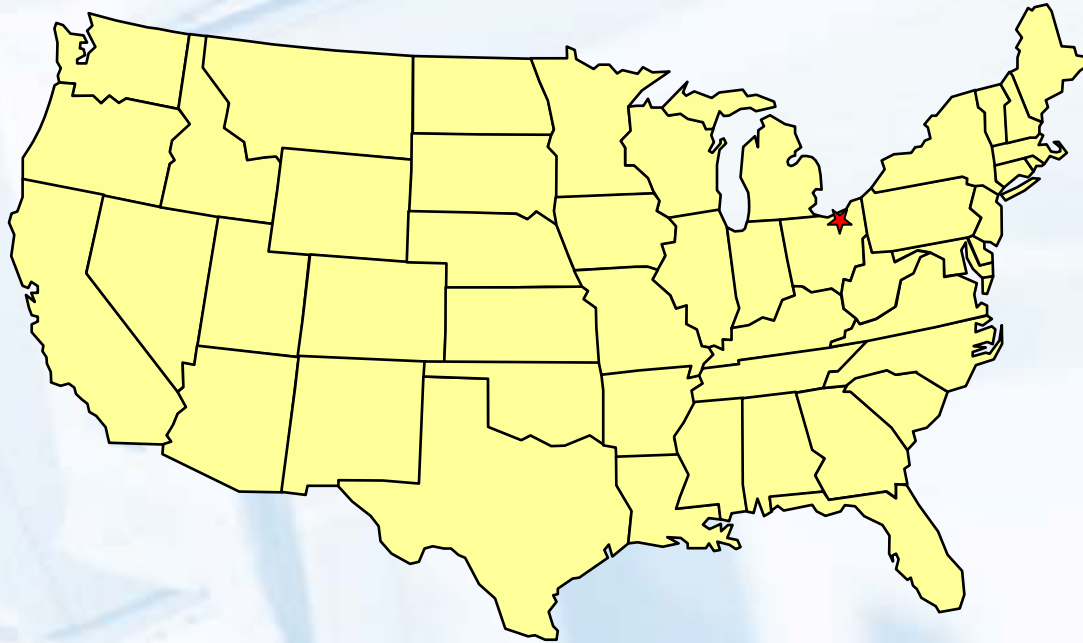

Enrichment activities that I have previously utilized to cement the students' education fit right into this core curriculum. The whole system of explore, learn and practice, reflect and reinforce is so easy for the students. As an instructor, I am grateful for the way that HealthCenter21 has helped my students learn thereby making **my job easier**. The student's can negotiate the program at their pace and they have the ability to go back and review information as needed. I have found that my **students are very successful** with their learning. I love the fact that students are able to keep track of their grades as well.

HealthCenter21 training was remarkable. We were given ample time to explore, learn, practice, reflect and reinforce all the information that was given about the program. The course guide teacher's manual was helpful as well in setting up my classes and system for the first time. The staff at AES is **wonderful** and very **professional**. Any questions that I have had were answered in a timely manner.

As an instructor to juniors and seniors I would highly recommend HealthCenter21 to any health teacher. **The product is fantastic! Thank you AES for making my work easier!**
