Management Administrative
Systems; Business Principles

Year of Installation: 2005

Francis Johnson, Business Teacher in Arizona, explains how BusinessCenter21 has assisted his students to perform at a higher level...

"BusinessCenter21 was installed and on line the first day of school for the 2005/2006 school year. I expected to have a series of technical problems since that is usually the way with new software...**You always have problems to solve!**

With BusinessCenter21, we just went to work. Everything works just as it was demonstrated. No surprises! The students have learned to use the product and are now performing at a higher level thanks to BusinessCenter21. **In my opinion, they are retaining and applying information better with BC21's delivery of supplemental curriculum information.**

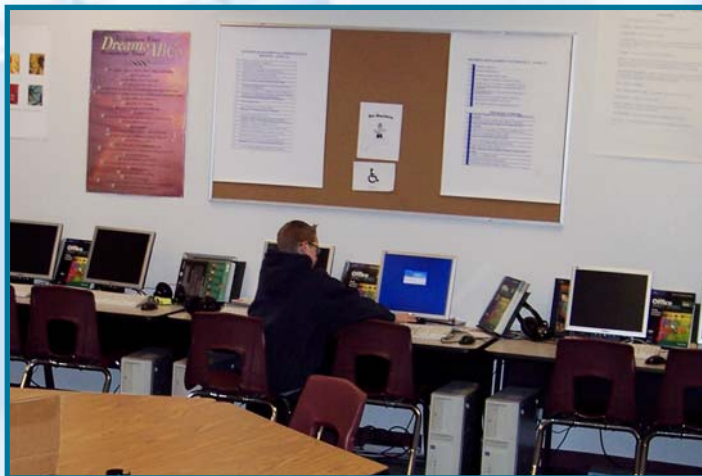

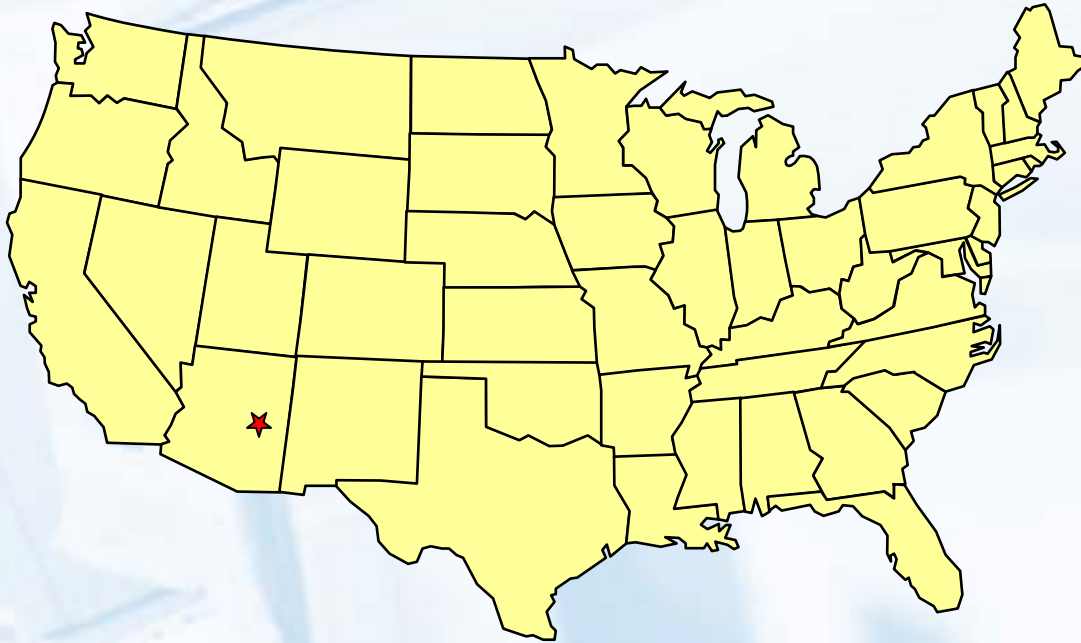

The best part is now I have time to help students that did not get my attention in the past and the classroom enrichment activities, that I had been struggling to incorporate into the curriculum, can now be used to help students really understand.

The training for BusinessCenter21 was exceptional and addressed the issues that I needed to know. I have continued to learn and expand my knowledge of BusinessCenter21. The support from AES has been on target and timely.

I would recommend BusinessCenter21 to any Business Teacher. The product works just as it was represented. **Thank you AES!**"
